# Base pumps

3000 / 5000 / 8000 / 10 000 / 13 000

New device from Reef Factory. Base pump, together with over 20 other devices, creates an ecosystem that allows remote management of a marine aquarium from the Smart Reef application. More devices are coming soon, together they will create a complete set that fully covers the needs of every marine aquarist.

Base pump is a high-efficiency return pump with Smart technology. Very quiet operation and full control via the newly redesigned control panel. Modern, minimalist design. The set includes a separate display that shows the power and flow rate in real time.

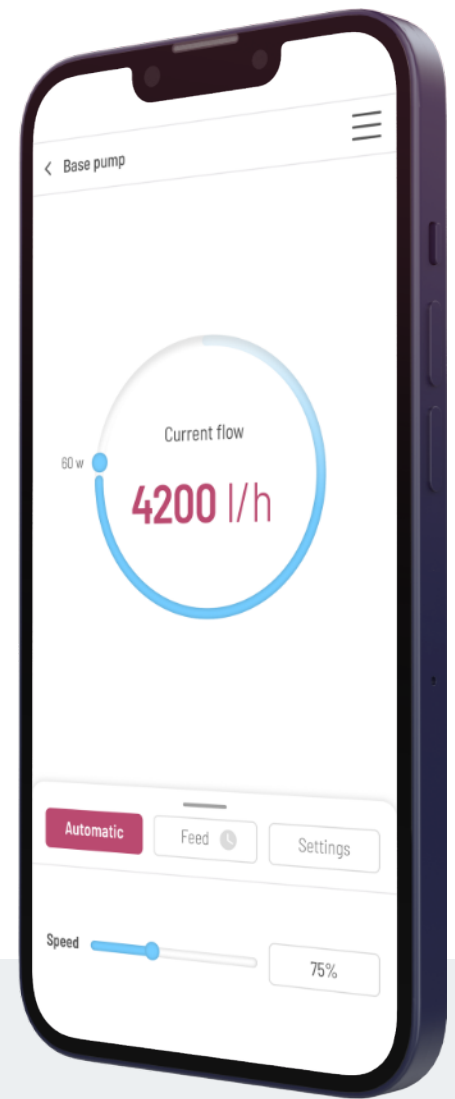

## Key features:

- managed remotely via the Smart Reef app
- high energy efficiency
- quiet operation
- clean, modern design
- separate display showing flow rate and power
- automatic stop of operation when the water level is too low (the app will send a PUSH notification to inform the user)
- 4 versions of flow rate [l/h]: 3000 / 5000 / 8000 / 10000 / 13000
- suitable for aquariums with a capacity of 300 to 13000 liters
- 12 months warranty

## Smart features:

- free, user-friendly Smart Reef app for Android, iOS or PC (browser support)
- a completely new interface that allows for quick and easy setup
- remote control in a dedicated panel of the Smart Reef application
- adjustable flow rate
- remote on and off
- PUSH notifications on a mobile device
- feeding mode - the ability to remotely stop the pump for the time of feeding and program after what time it should turn back on
- separate display showing power and flow rate
- remote switching on and off of the display and its additional backlight

## Additional features:

- rubber feet for easy installation of the pump in the tank
- DIN rail on the back of the display, for quick hanging in the selected place
- high-performance, reliable power supply
